

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Loulee, Inc.  
DOCKET NO.: 04-27724.001-R-1  
PARCEL NO.: 13-05-324-043-0000

The parties of record before the Property Tax Appeal Board are Loulee, Inc., the appellant, by attorney Melissa K. Whitley of Marino & Associates in Chicago, and the Cook County Board of Review.

The subject property consists of a 74-year-old, three-story, multi-family dwelling of masonry construction containing 4,976 square feet of living area with six full bathrooms, a full-unfinished basement and a three-car attached garage. The subject is located in Jefferson Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story or three-story, multi-family dwellings of frame or masonry construction located within a distance of 5.8 miles from the subject. The improvements range in size from 3,744 to 6,933 square feet of living area and range in age from 75 to 100 years. The comparables contain from three to six full bathrooms, a full-unfinished basement and a two-car or three-car detached garage. The improvement assessments range from \$5.84 to \$6.90 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,733  
IMPR.: \$ 44,212  
TOTAL: \$ 49,945

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$49,945. The subject's improvement assessment is \$44,212 or \$8.89 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, multi-family dwellings of masonry construction located within the same survey block as the subject. The improvements range in size from 2,258 to 3,952 square feet of living area and range in age from 50 to 76 years. The comparables contain from two to six full bathrooms and a full-finished basement. Two comparables contain a two-car detached garage. The improvement assessments range from \$9.04 to \$12.97 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of seven properties somewhat similar to the subject but with many variations in living area, design and/or type of construction. These seven properties have improvement assessments ranging from \$5.84 to \$12.97 per square foot of living area. The subject's per square foot improvement assessment of \$8.89 falls within the range established by these properties. The Board finds of the seven comparables offered by the parties, six vary substantially from the subject in living area, one varies in construction and four vary in design. In addition, four of the comparables are located within a distance of approximately four and one-half to six miles from the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
